## **MB05500**

### **WEIGHT MEASURER**

**Level 1**

---

#### **Reports to (Hierarchical)**

Activity Supervisor

#### **Reports to (Functional)**

Activity Manager

#### **Job Family**

Medical

---

#### **Main Purpose**

Perform and keep record of anthropometrical measurements (height, weight, etc.) of patients according to **MSF** protocols, in order to complete and supervise their files and to preserve data traceability.

---

#### **Accountabilities**

- Measure weight, height and Middle Upper Arm Circumference (MUAC) of children and patients.
  - Detect sign of oedemas.
  - Participate in nutritional surveys and assessments outside health facility.
  - Record in individual patient's card and registration books all information measured, i.e. MUAC, weight and height.
  - Inform patients and carers about results of measuring, i.e. weight, height, difference from previous measurement, if any.
  - Look after all equipment provided.
  - Ensure that no material is taken out of weight and height measure area without prior authorisation.
  - Report medical staff on any possible health problem or issue (big loss of weight, missing file).
  - Report daily measurements, i.e. number and results, at the end of each day.
  - Report line manager on any incidence regarding weight, height and measurers or on equipment or material (broken, missing).
- 

#### **Education**

Essential literacy.

---

## **Experience**

Not required, desirable experience with other NGOs.

---

## **Languages**

Essential, local languages; mission working language, desirable.

---

## **Knowledge**

Essential basic knowledge of mathematics and of how using measuring equipment.

---

## **Competencies**

- Commitment.
  - Flexibility.
  - Stress Management.
  - Results.
  - Teamwork.
  - Service.
-
